

Tonalite

★: Bir majör tonalitenin 6.derecesinden başlanıp aynı donanım ile dizi tamamlanırsa ilgili minör dizi (eolik olarak) elde edilir. Buna göre Do majörün ilgili minörü La minördür.

*: Diyezli tonlarda donanımdaki son diyezden m2'li çıkılırsa ilgili tonalitenin adı bulunur.

*: Bemollü tonlarda donanımdaki sondan bir önceki bemol ilgili tonalitenin adını verir. (Fa majörde bu kural uygulanmaz.)
